

FOR IMMEDIATE RELEASE

Author Ryan J. Berridge Debuts Book “Where Were You? Ten Terrifying Tales” to Rave Reviews

For first-time author Ryan J. Berridge, publishing his first book, “Where Were You? Ten Terrifying Tales,” was a milestone in his life. The book is now available on Amazon.

New Orleans, LA – USA – October 29, 2020 – Ryan J. Berridge, author of “Where Were You? Ten Terrifying Tales,” writing and publishing his first book didn’t come without struggles. Berridge, born in Sheffield, England, used his location as the inspiration for his book, a short story collection. Berridge says, “I’m a huge fan of horror films, and as a teen fell in love with RL Stein’s *Goosebumps* and Stephen King’s book. So, writing in this genre was a natural fit for me. I had the idea to write a book for years, but finally, at the age of thirty-three, set out to accomplish the task.” According to Dr. Melissa Caudle, media influencer and bestselling author, “Berridge is an incredible writer. His collection is the best I’ve read since Edgar Allen Poe. Not only is it well-written, but each story gets more profound.”

ABOUT THE BOOK

A military accident releases a deadly virus into the public, turning infected humans into ultra-violent crazy people. Nine of the ten stories are based in England, where guns are unavailable, and survival is challenging. The stories are realistic except for the protagonist and places the reader in the center of work, home, holiday, etc. The infected are purposely unidentified.

Ten Terrifying Tales are ten short stories set in this same world. Taken at various time points during the outbreak, they tell the tales of ordinary people in ordinary situations and the battles that take place in this ‘new normal.’

Stories Include:

Home Sweet Home

Floor Two

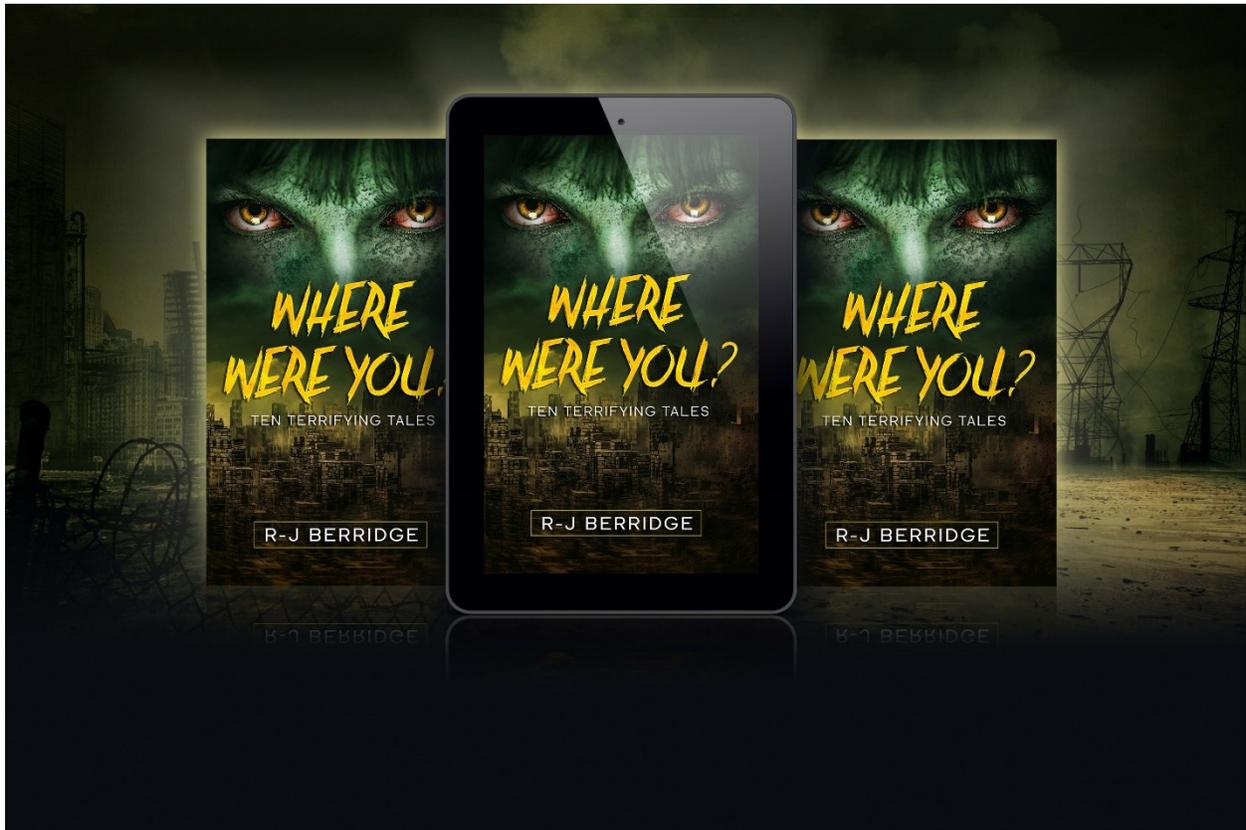

Him and Her

Locked Up

ICU

The Last Train

Paradise
Evacuation
Valley Farm
The Bait
